### PURPOSE:

ICON is committed to designing, manufacturing, delivering, and supporting a high quality Light Sport Aircraft, providing a level of safety well beyond expectations.

ICON has experienced several anomalies related to the functionality of the DAC System. Specifically, random and infrequent “flickers” of Land Aircraft and Battery annunciator panel lights have been reported across most aircraft. ICON Aircraft has corrected this issue in the latest release of DAC software. This notification provides Instructions for upgrading the DAC with the latest software revision.

ICON will send the Certified Service Providers with software upgrade on a DAC Memory Unit. Please ship the DAC Memory Unit back to ICON after the software upgrade instructions are complete.

### WARRANTY:

ICON Certified Service Providers: Please submit an invoice for warranty reimbursement of labor hours on completion. Please reference Notification number N-022519.
